DETAILED ACTION

Claim Objections

1. Claim 15 is objected to because of the following informalities: the recitation of "attached to side of the table" (line 12) should be amended to "attached to the side of the table".

Appropriate correction is required.

Claim Rejections - 35 USC § 112

1. The following is a quotation of the first paragraph of 35 U.S.C. 112:

The specification shall contain a written description of the invention, and of the manner and process of making and using it, in such full, clear, concise, and exact terms as to enable any person skilled in the art to which it pertains, or with which it is most nearly connected, to make and use the same and shall set forth the best mode contemplated by the inventor of carrying out his invention.

2. Claims 15 and 17-20 are rejected under 35 U.S.C. 112, first paragraph, as failing to comply with the written description requirement. The claim(s) contains subject matter which was not described in the specification in such a way as to reasonably convey to one skilled in the relevant art that the inventor(s), at the time the application was filed, had possession of the claimed invention.

The recitation of "attaching aligning units to a plurality of side surfaces of a table" (claim 15) fails to comply with the written description requirement. The specification only teaches that "[t]he aligning substrate 502 may be provided at every side of the table 500, as well as at one side of the table 500" ([0037] of the published application U.S. Publication No. 2004/0090592). The claim encompasses the embodiment of having a plurality of aligning units attached to side surfaces of a table wherein at least one side surface of the table does not have an attached aligning unit. Applicant does not have possession of such an embodiment at the time the application was filed. Thus, the claim presents new matter.

Claim Rejections - 35 USC § 112

3. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

4. Claims 15 and 17-20 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Claim 15 recites "the aligning unit" throughout the claim in multiple instances. It is unclear as to whether the aligning unit is referring to one of the aligning units or all of the aligning units because the claim now requires multiple aligning units.

Claim 15 recites "moving the table in the direction along which the aligning unit is attached in the table". However, the claim requires multiple aligning units and it is indefinite as to which aligning unit(s) the recitation is referring to.

Response to Arguments

5. Applicant's arguments, see pg. 5-7, filed 5/6/2009, with respect to claims 14-20 have been fully considered and are persuasive. The rejections of the claims have been withdrawn. However, the newly amended claims raise issues of 35 U.S.C. 112, first and second paragraph. See above rejections for details.

Conclusion

6. Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
